

Altrua Testimonials

Our family of six has been with Altrua HealthShare for 15 years now. Our experience has been great both financially and emotionally. The customer service goes above and beyond with quick replies and thorough information. We honestly believe we could not find the same 'health care' (sharing) for our family anywhere else that is as comparable.

Mr. & Mrs. Steiner, MT

I have been a member of Altrua HealthShare since early 2002. I can say Altrua HealthShare has truly blessed my family over the years of being there in times of medical needs. Without Altrua HealthShare in my life, I was not able to afford Private Personal Insurance premium costs as they are today. I also would have been financially crippled without Altrua HealthShare's assistance. I am very proud to be considered a member of Altrua HealthShare. **Mr. Jacobs**

Our family of eight has been with Altrua HealthShare since early 2000. We have delivered four children, had 18 various broken bones, 4 extended hospitalizations, five various surgical procedures, and more doctor and specialist visits than one can count on all of our 160 fingers and toes! Yet through all these medical trials, Altrua HealthShare has been with us every step of the way. **Nicole T, Las Vegas, NV**

We have been members of Altrua HealthShare for three or more years now. I own a small company that does not offer health insurance to employees, so we've always had to seek good prices on insurance. We had traditional insurance for a few years, and they continued raising their premiums from \$700 all the way up to about \$1,250. We pay under \$500! **Mr. & Mrs. Harshaw, TX**
